Year 1 & 2 Number Bonds Parent & Carer Meeting

You are invited to attend a number bonds meeting on **Wednesday 11th November at 2:45pm in 5W** (please use the main entrance).

At the meeting, you will be given information about how number bonds are taught to your child and how we can work together to improve the recall of these bonds. The purpose of number bonds is to support children to fluently recall addition and subtraction facts for numbers, which are essential to future success in mathematics, and identify where any additional support is needed.

The sessions will provide more information on the content of these bonds, how they are taught and how we will prepare the children so they are able to use these within maths lessons. You will also be given information about resources to help you to support your child at home.

We strongly encourage you to attend the meeting. However, the PowerPoint of information will be uploaded to the school website in case you are unable to attend.

If you have any questions please contact the school office by telephone or speak to your child's class teacher. Thank you in advance for your support; we look forward to seeing you then.
